

Power (Not Ours) in 2024

Sunday October 6th -Pray for the persecuted

Georgieta's family worshiped demonic spirits in an area of Sierra Leone where human sacrifice still occurs. After becoming a Christian, she refused to participate in her family's occultic rituals and was thrown out of the house. She moved in with a pastor's family, but when her father became sick, they planned to ritually sacrifice her, hoping it would heal her father. She escaped, but when her father later died, Georgieta's mother blamed her for his death and tried to kill her. She now lives in a safe location and is receiving biblical teaching and training to become a seamstress.
