## *Sunday September 29<sup>th</sup> -Pray for the persecuted*

When Dinara came to faith in Tajikistan, her Muslim family members beat her severely. Dinara fled the abuse, but her family tricked her into returning by telling her that her grandfather was ill and needed her. When she returned, she arrived to a room full of people waiting for her, including a Muslim man who was going to take her as his second wife. Dinara escaped and eventually fled to another nation, where she is working to start a new life. Pray for her and her family.
